

MILK MAX

HIGH QUALITY GRASS MIXTURE

25% DIVIDEND VL Orchardgrass
25% ELGON Perennial Ryegrass
25% FESTULOLIUM (Ryegrass x Meadow Fescue)
25% MARTIN 2 Tall Fescue

Why DIVIDEND VL Orchardgrass?

**QUICK ESTABLISHMENT, EXCELLENT RE-GROWTH,
INCREASED DIGESTIBLE FIBRE LEVELS, EXCELLENT
DROUGHT TOLERANCE**

DIVIDEND VL Orchardgrass is the latest maturing Orchardgrass on the market. The later maturity and increased harvest window will provide the highest quality feed available from any orchardgrass on the market.

Why ELGON Perennial Ryegrass?

**QUICK ESTABLISHMENT, EXCELLENT RE-GROWTH,
INCREASE IN SUGAR & DIGESTIBLE FIBRE LEVELS**

ELGON Perennial Ryegrass is one of the latest maturing Ryegrasses on the market. The later maturity and increased harvest window will provide the highest quality feed available from a perennial ryegrass.

Why Festulolium?

**QUICK ESTABLISHMENT, EXCELLENT PERSISTENCE,
INCREASE IN SUGAR & DIGESTIBLE FIBRE LEVELS**

Festulolium is proving to be a very highly digestible grass that provides notable increases in sugar levels. Festulolium is more persistent and drought tolerant than perennial ryegrass.

Why MARTIN 2 Tall Fescue ?

**DROUGHT TOLERANT, EXCELLENT FALL PRODUCTION,
EXCELLENT PERSISTENCE, INCREASED DIGESTIBLE FIBRE
LEVELS**

Martin 3 is a fine leafed Endophyte free tall fescue that will provide high quality forage throughout the growing season. Martin 2 will provide excellent re-growth in all cuts.
