FORAGE
SEED GUIDE

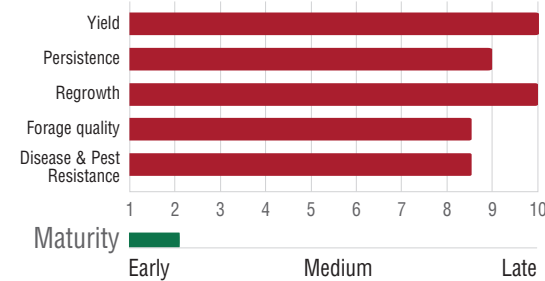

DOMINATOR II

- Unbeatable yield
- An extremely fast regrowing variety

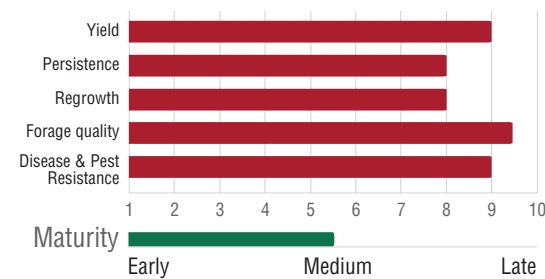

DOMINATOR

- Excellent yield in a 4-5 cut system
- An extremely fast regrowing variety

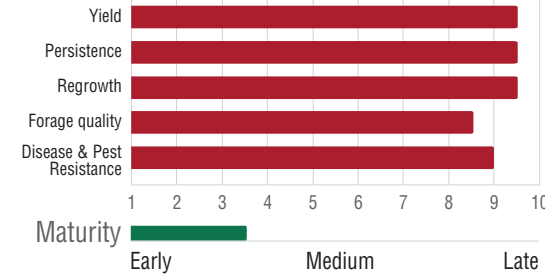

BOOST HG

- Improved fiber digestibility and intake for increased milk production
- Greater harvest flexibility and improved forage quality through **Hi-Gest ALFALFA TECHNOLOGY**

STELLAR II

- Extremely winter hardy & persistent
- Very drought tolerant with excellent regrowth

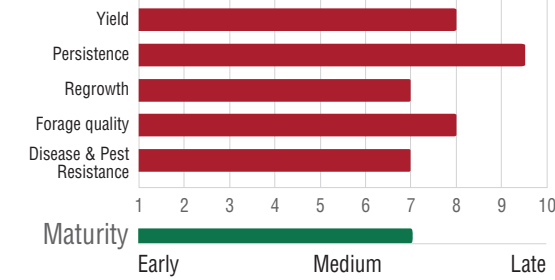

SPECIALIZED QS ALFALFA

- **Legacy Alfalfa Blend**
 - 60% Shield Alfalfa AND 40% AAC Trueman Alfalfa
- **HG Alfalfa Blend**
 - 60% Surge HG Alfalfa AND 40% Boost HG Alfalfa
- **T.F.P. Alfalfa Blend**
 - 60% Stellar II Alfalfa AND 40% Shield Alfalfa
- **HarvXtra RR Alfalfa**
- **FSG 421LH Alfalfa**
- **Allied Brand Alfalfa**

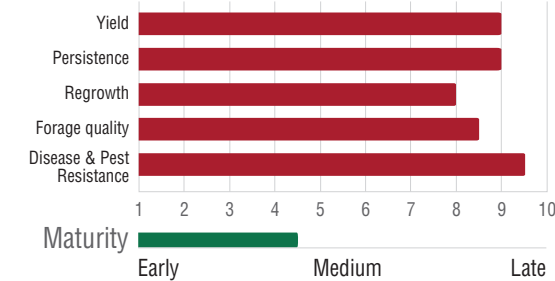

AAC TRUEMAN

- Excellent persistence in wet soil conditions
- A strong creeping rooted variety

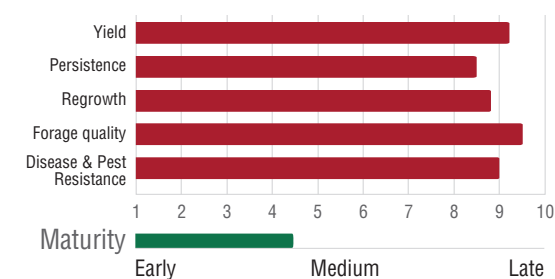

SHIELD

- Excellent for hay & haylage production
- A high quality branch rooted variety

SURGE HG

- Improved fiber digestibility and intake for increased milk production
- Earlier maturing HG variety with quicker re-growth
