

Hard Fescue

Sword

Benefits:

- ✓ **Dark Green Genetic Color**
- ✓ **Improved Traffic Tolerance**
- ✓ **Great Spring Density**
- ✓ **Excellent Resistance to Red Thread**

Seeding Rates:

New Establishment:

4-6lbs/ 1,000 square feet

Overseeding:

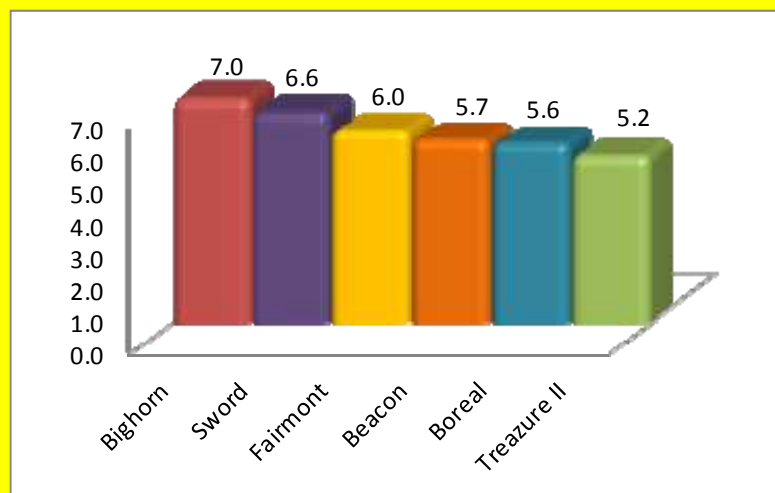

2-3lbs/ 1,000 square feet

Sword is a Hard Fescue that combines dark green genetic color, great density, improved traffic tolerance and good overall disease resistance for a desirable quality turf.

Sword has exhibited excellent resistance to Red Thread and good resistance to Dollar Spot.

Sword was rated number 4 in NTEPs Fine fescue turf quality rating in "AMMI" group 1 trial. **Sword** does well in locations that have sandy loam soil. **Sword** also handles shade and is ideal in low maintenance situations.

Sword is ideally suited for golf courses, parks, commercial and residential properties.
